

This warranty applies to Oyster Quartz surfaces products supplied by Oyster Quartz authorized fabricators only.

### Our Promise

We promise to you that Oyster Quartz is of the utmost durability and practicality. In the unlikely event of a defect arising from the manufacture of the product, your Oyster Quartz fabricator will do their utmost to provide a fair and reasonable resolution to all customers covered by the Oyster Quartz warranty.

### Product Appearance, Care and Specifications

The products are manufactured from naturally occurring crushed quartz materials. Each slab is unique and can contain slight variations in shading, reflectivity, and the distribution and appearance of quartz. As each slab contains millions of individual quartz particles, the inclusion of varying coloured quartz particles may occur. Such particles that measure under 3mm in diameter are not considered defects, but are considered a part of the manufacturing process. Any particles over that size may be cosmetically filled at the fabricator's discretion. These variations are naturally occurring characteristics of the base quartz material. The appearance of each slab will also vary depending upon lighting conditions, placement, and viewing angle.
